

TJ-JK Billet Aluminum Brake Master Cylinder Cap 97-11

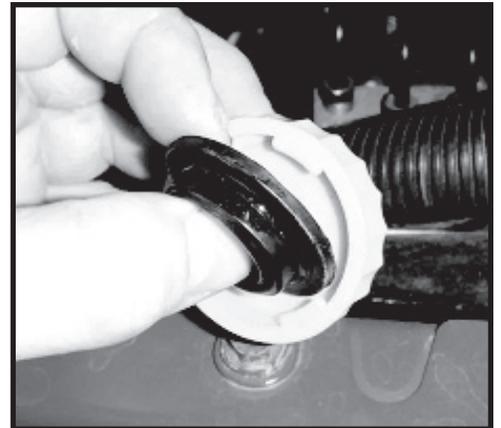

Contents: Brake Master Cylinder Cap (1)

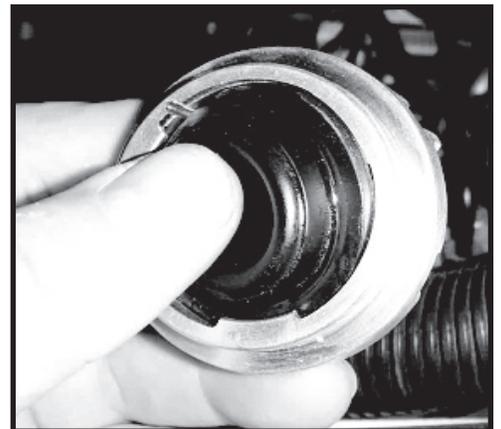

PLEASE READ AND UNDERSTAND ALL INSTRUCTIONS BEFORE YOU BEGIN.

Notice: Aluminum holds more heat than plastic. Use caution when removing.

Step 1. Remove the factory brake master cylinder cap. Remove the rubber grommet from the bottom of the cap.

Step 2. Install the rubber grommet from the factory cap into the new billet cap. Replace cap onto the brake master cylinder.

Care and Maintenance: Use soap and water to clean the aluminum surface. Regular cleaning with help maintain the appearance. Do not use harsh chemicals.
