

NEW PRODUCT RELEASE

Release the Racks --- New for 2012

The first new product release for the New Year, sees the start of our new roof rack program. Designed to fit most of the wagons, our programs has been put together so that our customers can have the roof rack and different feet to customize the end users requirements.

All racks have a mutli-fit bracket system, welded mesh floor, wind noise deflector and features our unique upright design with our stamped in Logo, as pictured below. All racks a powder coated black.

We are currently working on a fitting system for our canopies, Prados, Pajeros and other vehicles.

We will soon release full alloy cage racks.

NEW PRODUCT RELEASE

Ironman 4x4 Rooftop tent Compatible rack

This new tent rack has been made in 2 sizes, 1.8m and 2.2m long by 1.25m wide. The design has been made to work easily with our rooftop tent, while providing a small cage style section at the front for other storage. Our Ironman 4x4 awning is also easily adapted to make this rack very versatile.

The 1.8m rack weights 34kgs

The 2.2m rack weights 38.5kgs

This rack will fit most vehicles with gutters using our gutter mount feet and also the LC100/105 and LC200 using their specific feet.

PART NUMBERS – IRR TENT18 and IRR TENT22
