

Fitment Instructions

Model: NISSAN Navara D22

Underbody Protection Plate

Part Number: IUP006E

Engine Bay

Years: 1997-

Engine type: 2,5 TD

APPLICATION:

Protection of engine bay and transmission elements from damage.
Protection of engine bay and transmission elements from dust and water.

INSTALLATION:

This protection plate has been designed for installation to the intended application only. It should be mounted according to these installation instructions by an experienced Ironman 4x4 dealer or certified fitter. The plate is fixed to original vehicle mountings located on the vehicle's body load-bearing elements. Upon successful installation the plate should not interfere with any other parts or components.

INSTALLATION MANUAL:

1. Remove OE duster.
2. Mount three hooks to the front axle beam.
3. Fix front part of plate "A" to mounted hooks. Fix the rear part of plate "A" to transfer case supporting beam using the tubes to space the plate away from the vehicle.
4. Fix plate "B" to rear of plate "A".
5. Install lugs to OE fixing points located on the front of the vehicle.
6. Install rear of plate "C" to front of plate "A", then install front of plate "C" to mounted lugs.
7. Tighten all screw joints.

WARRANTY:

Warranty period - 12 Months

WARRANTY TERMS:

The plate should only be installed on a vehicle with undamaged body and load-bearing elements, vehicles which have been involved in a significant collision may prevent successful installation.

Ironman 4x4 does not bear liability for any damages caused to the vehicle, or injury to persons in case of installation or product failure. Ironman 4x4 has a right to introduce changes into the skid plate construction.

The Quality Management System at production has been audited by Bureau Veritas Certification and conforms to requirements of the ISO 9001:2008 standard.
